

## Get a FREE Intel Premium Feature Key

When you purchase an Intel® Solid State Drive, and Intel® RAID Controller

This powerful trio offers significant performance advantages including I/O acceleration. Simply add at least one SSD to your array to improve performance, and reduce power consumption per IOP.

### How SSD Cache Works

With SSD Cache software, frequently accessed data sets are copied from HDDs to lower latency Flash SSDs to improve system performance in subsequent read requests, with a 50x increase of re-reads of host-spot data.

**SSD** Intel Solid State Drives provide rugged and reliable storage performance. SSDs can reach up to 45,000 read IOPs compared to the fastest enterprise hard disk drives that can only reach up to 400 IOPs.

**RAID CONTROLLER** Intel® RAID Controllers lower total cost of ownership and provide simple, high-performance data protection for Intel® Server Boards and Systems based on the Intel® Xeon® processor 3400 and 5600 series.

**PREMIUM FEATURE KEY** SSD Cache and FastPath I/O, when combined with an SSD and RAID controller, can accelerate I/O and transactional performance of your array. FastPath I/O nearly doubles I/O performance with up to 150,000 I/O reads per second for SSDs.

**Order yours today** – This offer is good from September 12, 2010 through December 25, 2010. Limit five free Intel premium feature key per reseller, per offer; may not be combined with other promotional offers.

For more information on Intel® RAID and RAID Premium Feature Keys, please visit: [www.intel.com/go/RAID](http://www.intel.com/go/RAID)

#### TERMS AND CONDITIONS:

Limited five free SSDs with FastPath I/O Premium Feature Key per reseller, assigned to the first qualifying combination of products purchased. Only kit sales on same sales order/invoice will qualify for the free offer. The promotion starts September 12 and ends December 25, 2010. Can not be combined with any other offers, discounts or DPAs. Qualifying RAID controllers: RS2BL040, RS2BL080, RS2PI008, RS2MB044, RS2WG160, RS2SG244, RS2WG160, RMS2MH080. Qualifying SSDs: X25-M 80GB, X25-M 160GB, X25-E 32GB, X25-E 64GB. Free Feature Key: AXXRPFKSSD. Please see [www.intel.com/go/reseller](http://www.intel.com/go/reseller) for complete Terms and Conditions.

Only at your Intel® Authorized Distributor.
